Jamnagar, Gujarat, India

PROFESSIONAL SUMMARY

Full-stack Engineer with 1.5+ years of production experience in Node.js, React.js, and AWS. Proven track record in building high-performance real-time architectures (Firebase) and event-driven systems. Expert in database optimization (PostgreSQL/Prisma) and large-scale migrations (78K+ records). Built and maintained production sports scoring applications with 10K+ downloads. Strong foundation in algorithms and system design; currently pursuing AWS Certified Solutions Architect (SAA-C03).

CORE COMPETENCIES

Node.js & Express.js	React.js & TypeScript	PostgreSQL & MongoDB	AWS Lambda & EventBridge	Redis (Caching & Queues)
Real-Time Systems (Firebase)	Stripe Payment Integration	API Performance Optimization		

WORK EXPERIENCE

Matlab Infotech Pvt Ltd

May 2024 - April 2026

Software Engineer

Surat, Gujarat, India

- Full-stack Engineering:** Built and maintained core features using **Node.js, React.js, and Prisma** for WinChurch, a global claims platform.
- Performance Algorithms:** Reduced global search API response from **10s to 700ms** for 78K+ records by implementing search field normalization and GIN indexing with pg-trgm.
- Scalable Data Migration:** Orchestrated the migration of 78K+ records from legacy GraphQL to PostgreSQL using **Redis-backed queues** with automated retry logic, ensuring zero data loss.
- AWS Automation:** Developed a suite of **AWS Lambda** functions to automate government form submissions and Microsoft Graph API integrations via EventBridge cron schedules.
- Reliability:** Diagnosed and resolved a critical production Redis master-slave failover conflict; implemented auth hardening to secure automation pipelines.
- Real-time Architecture:** Replaced polling with **Firebase real-time listeners** in a production mobile app (CrickEdge), serving 10K+ users with near-zero score latency.

Promact Infotech

Jan 2024 - April 2024

Software Engineer Intern

Vadodara, Gujarat, India

- Implemented secure JWT authentication and role-based authorization (RBAC) in Node.js backends.
- Developed automated email notifications and PDF export features using React and Node.js.

SELECTED PROJECTS

CrickEdge - Live Cricket Score App

10K+ Downloads

Full-stack real-time scoring application for Android and iOS. Built with Node.js and Firebase Realtime Database to deliver instant updates without polling.

Stack: Node.js, Firebase, Redis, JWT, OAuth2

WinChurch Claims Platform

Scale: 78K+ Records

UK-based claims management platform. Automated government portal interactions and email webhooks via AWS Lambda suite.

Stack: Node.js, React, Prisma, PostgreSQL, Redis, AWS Lambda, Stripe

EDUCATION

B.Tech in Information Technology | Dharmsinh Desai University

2020 - 2024

CGPA: 7.92 / 10

CERTIFICATIONS

AWS Certified Solutions Architect - Associate (SAA-C03)

Amazon Web Services

In Progress

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScriptBackend: Node.js, Express.js, Prisma, REST API Design, Event-Driven Architecture

Frontend: React.js, HTML5, CSS3, Responsive DesignDatabases: PostgreSQL, MongoDB, MySQL, Redis (Queues & Caching)

Cloud: AWS Lambda, EventBridge, S3, CloudWatch, Docker, CoolifyOther: Git, JWT, OAuth2, Stripe, Firebase, New Relic, Jira
